**AWARD**

By the Ministry of Labour & Employment, Government of India, New Delhi's Letter No. 7/20/64-LR II, dated 10th November 1964, the industrial dispute between the employers of the Singareni Collieries Company Limited, Mandamarri Division, Andhra Pradesh, and their workmen was referred for adjudication with the following issues framed in the Schedule, viz.,

"Whether Shri Bonkoori Posham (now in the grade of Rs. 43-3-85) should, in view of the actual duties performed by him, be placed in the grade of Rs. 65-5-100 as an under-looker? If so, from what date?"

2. The reference was registered here as I.D. No. 50/1964. The written statements of the parties were received on 28th December, 1964 and 27th January, 1965 respectively. Several documents and many witnesses were adduced by them. I have heard arguments and proceed to record my opinion below.

3. The Union's case appears to be a simple one. It is that Sri Bonkoori Posham was a Mining Sirdar Class-I, as he possessed the Mining Sirdar and Ambulance Certificates. In view of this, as according to Appendix XVIII of the Coal Award, a Mining Sirdar is equivalent to a mine Under-looker, Sri B. Posham should be given the grade of Rs. 65-5-100, as this is the grade given to such under-lookers in the Wage schedule of the Company which has all along been in force.

3(1): To meet this simple case mountains came into eruptions. Sri Shyam Mohan, the Deputy Personnel Manager and a Law graduate, conducted the proceedings before me and addressed an eloquent argument. The Manager, Sri Ramaswamy, came into the witness box and the Under-looker, Jampa Reddy, also deposed. Sri Shyam Mohan contended that under regulation 195(1) of the Coal Mines Regulations 1957 there was an exemption by which competent person not possessing an Over-man's Certificate may be appointed to do the Over-man's duties. The exemption lasted till 24th October, 1961 when it was withdrawn. Hence, according to him, we have to see whether Sri B. Posham performed any duties beyond that of a Mining Sirdar, and which were similar to the duties of an Over-man, till 24th October, 1961 and after that, as the exemption has been withdrawn, even if the employer would like to appoint him as an Over-man he would be incompetent to do so. In this connection, reliance was placed on a decision of the Patna High Court referred to in the Gazette of India, Part (ii) Section 3, No. 278, dated 11th August, 1962 on page 2781, by which it was laid down that, the impact of the Regulations 34 and 195 on the Coal Award is that no person who does not hold the Over-man's certificate can be appointed as such.

3(2): I considered the above argument of Sri Shyam Mohan and, I feel that, it is not in point, for the simple reason that, the Union has not claimed that Bonkoori Posham ever performed the duties of an Over-man. There is no claim either that he should be given the grade of an Over-man or a deputy Over-man. The claim was that he did the duties of a Mining Sirdar Class I. This is admitted by the employer and, hence, under Appendix XVIII Posham becomes entitled to the grade of Rs. 65—5—100. Hence, it is not necessary to state that this argument of Sri Shyam Mohan was unnecessary and infructuous.

3(3): Sri Shyam Mohan next contended that as a Mining Sirdar Sri B. Posham was incharge of a district only and was never incharge of more than one district, i.e., he was never a shift incharge of an entire mine. Alternatively, he contended also that, even conceding that Posham was incharge of a mine, even then as under Regulation 113(a) an entire mine can be in the charge of a Sirdar, Sri Posham would still be deemed to have performed the duties of a Mining Sirdar and nothing more. I will consider this contention below.

3(4): I begin with the consideration of the contention that Posham was not a shift incharge. The Notice, Ex.W-2, dated 12th June 1959 is proved by Sri B. Posham. He has deposed that it is signed by M.W.1, Sri Ramaswamy, the Manager of the Incline-I, Kalyani Khani (as he then was) and has identified the Manager's signature on it. The notice is addressed to Sri Bonkoori Posham, T. C. Ramiah and S. K. Bam, and it is to the following effect:

"You will see that the following work places work regularly in *your shifts*.

1. 19 L. North off Main Incline—middle seam.
2. 15 L. South off 5 Dip—Middle seam.
3. 15 Dip off 14 L.S.—Bottom seam."

It should be noted that there were three shifts. The mine worked in three shifts and the notice was addressed to three persons and they were directed to inspect the three places mentioned therein regularly in their shifts. The three places consisted of a middle seam and a bottom seam and it is the deposition of the workmen's witnesses as also of the employer's witnesses that a seam means a district and two seams mean four districts. The notice, therefore, indicated clearly that Sri Posham was given charge of a shift and directed to inspect more than one district. Sri Ramaswamy in his deposition explained that he had made one district of both the seams viz., the bottom seam and the middle seam. But in cross-examination on page 6 of his deposition he had to admit that even in 1959 in incline-I there were four or five districts and four or five deputies. It is evident, therefore, that his statement that there was one district consisting of both the seams is not correct. It may also be noted that the use of the words "your shift" is not explained by Sri Ramaswamy. Again, there is another exhibit filed by the workmen. It is Ex.W-4. It is addressed to Sri Posham and to Satyanarayana. The directive there is that these two persons should instruct their deputies and short-firers to check up the filling in the tubs underground as it appears that it is not being done properly. The use of words 'your deputies' again signifies that Sri B. Posham was a shift incharge. This conclusion is also borne out by Ex.W-3 in which the Short-firers and coal-cutters were given directions about the maintenance of their drilling machines and copy of this directive was given, *inter alia*, to each shift incharge and was ticked to Bonkoori Posham also. In fact, Sri Ramaswamy admitted on page 6 of cross-examination at place-A that he had authorised Sri Posham "to inspect more than one district in the two seams." This admission corroborates the contents of Exs.W-2 to W-4 to the effect that Posham was given more than one district, i.e., he was a shift incharge. It corroborates also the evidence of Sri B. Posham that four deputies worked under him. This is because Sri Ramaswamy's admission that there were even in 1959 four districts implies that there were 4 sirdars or deputies with the necessary complement of Short-firers and coal cutters. It may be noted that Sri Ramaswamy has added to his statement that he had authorised Sri B. Posham to inspect more than a district in two seams, the words that he had authorised him for the reason that the working places were such that he could authorise him and he could have inspected all the districts during the shift hours. In my opinion, these sentences do not qualify the statement that Posham was authorised to inspect more than one district: for, nobody is expected to work for more than the shift hours. And about the phrase "that the working places were such", I feel that the only meaning that can be given to them is that they were of small dimensions. I will consider below whether that was so.

3(5): The record shows that the Mandamarri mine under consideration started in 1956. I have already referred to Sri Ramaswamy's deposition that in 1959 it had four or five districts. This will show that in 1959 when the Notice, Ex.W-2 was given to Sri Posham the mine was not a small one. M.W.2, the over-man Jampareddy has admitted on page four of his cross-examination that "in 1960 the mine was not in an initial stage, it has more than one face and three deputies were working." He has also said on the same page that the number of workmen working in three shifts in 1960 were 600. It appears to me that this figure is an under statement. It means that 200 workmen worked per shift. But in Ex.M-1 to M-4 there is record to show that in a shift 278 to 282 workmen worked also, for instance, in Ex.M-1 on page 43, the daily report filled by Posham shows the number to be 278. Sri Shyam Mohan contended that the number does not signify anything. I do not agree. They signify that the mine was not a small one and also that Sri B. Posham inspected more than one district. He was admittedly authorised for the same and, therefore, clearly he was a shift incharge, doing more work than that of a Sirdar. I hold accordingly.

3(6): The above conclusion is borne out by the fact that no mining Sirdar is incharge of more than two drilling machines. The complement of short-firers and coal-cutters comes to about 42. This was admitted by Sri Ramaswamy on page 6 of his deposition. There are several daily reports of other Sirdars to show that they had inspected about that number of workmen in their charge. By comparison, when Posham had many more men in his charge, he did extra work as Shift incharge of the mine and of many districts. The entire case rests on his doing that extra work

4 The above analysis of the record shows clearly that Sri B. Posham was incharge of more than one district from 1959 and, in the result, he did extra work i.e., more work than that of a Mining Sirdar merely. This does not imply that he was an Over-man. I have already adverted above more than once that it is not the Union's demand that Over-man's grade should be given to him. I have also adverted to the fact that the demand is that, as he was incharge of more than one district, or in other words he was a shift incharge rotating with the two other Shift-incharges, he should be given the Under-looker grade of Rs. 65—5—100. I am of the opinion that the Union has established its case and Sri B. Posham is entitled to that grade. I hold accordingly.

4(1): I find that I have not so far considered the alternative contention of Sri Shyam Mohan that, even conceding that Posham was incharge of a mine, even then, as under Regulation 113(a) an entire mine can be incharge of a Sirdar, Sri B. Posham is to be deemed to have performed the duties of a Mining Sirdar and nothing more. About this alternative contention, I may state that even so as under Appendix XVIII of the Coal Award a Mining Sirdar is equal to an Under-looker whose grade is Rs. 65—5—100, Posham has earned that grade. A Mining Sirdar is usually given a district of a mine. My analysis of the record in the foregoing paragraph would show that even as a Mining Sirdar he inspected more than one district and hence as a Mining Sirdar only he is entitled to the grade given to him in the Appendix XVIII of Rs. 65—5—100. It may also be noted that from 1963 Sri Posham has been given one district only. But till 1963, the foregoing paragraphs will show that, Sri B. Posham did perform duties which were more than that of a Mining Sirdar merely. It is for that past work which Sri B. Posham had done that the Union has demanded the grade of Rs. 65—5—100. In my opinion, having regard to his past duties, he fully deserved that grade. Regarding Appendix XVIII, the contention of Sri Shyam Mohan is not that it is affected by the Patna decision: his contention is that it has become obsolete as from 1957 it has not been acted upon. No record has been filed to substantiate this contention. In any case, the Appendix is invoked here for past services rendered from 1957 to 1963. I, therefore, hold that Sri B. Posham should be given the grade of Rs. 65—5—100 from the date of the demand before the Conciliation Officer viz., 17th July 1964. No order as to costs.

Award accordingly, given under my hand and the seal of the Court, this the 4th day of May, 1965.

*Dated at Bombay the 3rd May 1965*

## AWARD PART II

The Ministry of Labour and Employment by its order No. 1/8/62-LR.II, dated 19th November 1962 (S.O. No. 3549 published in the Gazette of India, Part II, Section 3(ii), dated 24th November 1962 at page 3877), made in exercise of the powers conferred by clause (d) of sub-section 1 of section 10 of the Industrial Disputes Act, 1947, was pleased to refer the industrial dispute between the parties abovenamed in respect of the six subject matters specified in the schedule to the said order, to me for adjudication.

2. The representatives of the parties filed a joint application dated 18th January 1965 (copy of which is annexed and marked as Annexure 1 to my Award Part I dated 27th January 1965 in this reference) in which they stated that they had agreed to refer the issues Nos. 1 and 5 in this reference, and the other disputes mentioned therein, to the arbitration of Shri F. Jeejeebhoy, ex-Chairman, Labour Appellate Tribunal of India, and *inter-alia* prayed that permission may be granted to the parties to withdraw the dispute in respect of issues Nos. 1 and 5 in this reference. With regard to issues Nos. 2, 3, 4 and 6 in this reference, the parties recorded in their said application that, "the Tribunal has already concluded the hearing in issues Nos. 2, 3, 4 and 6 in Reference No. CGIT-43 of 1962". Accordingly, I made an Award Part I in this reference dated 27th January 1965, allowing the application of the parties and permitting them to withdraw the dispute in respect of issues Nos. 1 and 5 in this reference, and I further stated that, "my award on issues Nos. 2, 3, 4 and 6 in this reference will follow later." Now, by this Award Part II, I am disposing of the said issues Nos. 2, 3, 4 and 6.

## 3. Demand No. 2

"Whether the following categories of workmen employed in the coal-washing plant of Nowrozabad Colliery of Messrs. Associated Cement Companies Ltd. are entitled to:—

- (a) revision of wage rates including dearness and other allowances;
- (b) change of designation or categorisation;
- (c) supply of uniforms.

If so, to what extent and from which date?

Categories of workmen:

- (i) Trammers,
- (ii) Tippler Operators,
- (iii) Washery Foreman,
- (iv) Washery Assistant Foreman,
- (v) Washery Attendants,
- (vi) Washery Helpers,
- (vii) Washery Mazdoors,
- (viii) Crusher Supervisors,
- (ix) Crusher Helpers,
- (x) Crusher and chute attendants,
- (xi) Electricians,
- (xii) Assistant Electricians,
- (xiii) Fitters,
- (xiv) Assistant Fitters,
- (xv) Fitter and Electrician Helpers,
- (xvi) Shale and reject pickers,
- (xvii) Bulldozer operators,
- (xviii) Bulldozer helpers,
- (xix) Welders,
- (xx) Greasers,
- (xxi) Oilmen."

4. At the hearing of this dispute the parties were agreed that the wage rates including dearness allowance and other emoluments, designation and categorisation and conditions of supply of uniforms in respect of the workmen of the washery in the company's Nowrozabad Colliery, should be the same as those which the Central Wage Board for the Coal Mining Industry in India (hereinafter referred to as the 'Coal Wage Board') would recommend and that the only thing I was required to do was to fix the date from which the same should be made applicable. However, on 2nd December 1964, the company filed a supplementary written statement *inter alia* disputing the jurisdiction of this Tribunal to adjudicate on this demand in view of the Central Government's reference to the Coal Wage Board having been made by Resolution Nos. WB-16(1)/62, dated 10th August, 1962 and 17th October 1962 respectively. The company has stated in its said supplementary written statement that the company is party to the enquiry to be conducted by the said Wage Board into the coal industry and its recommendations if accepted by the Government will also be applicable to it, as among other questions, the Coal Wage Board was also seized of the question of the categorisation, wage fixation, etc. in respect of the employees in the coal washeries belonging to individual coal companies. The company has urged in that written statement that as the Wage Board is already seized of the question of the fixation of the wage structure of the workmen employed in the washeries belonging to the individual coal companies, the Government's Order of reference herein dated 19th November 1962 having been made after the reference to the Wage Board was incompetent and void as far as issue No. 2 was concerned and this Tribunal has no jurisdiction to adjudicate upon this.

5. But at the hearing of this dispute at Jabalpur on 16th and 17th December 1964, it was clearly stated on behalf of the company on demand No. 2, that the recommendations of the Coal Wage Board would apply and that the only thing I was required to do was to fix the date from which the recommendations of the Wage Board will be made applicable. Thereafter at the adjourned dates no reference was made to the objections urged in the company's written statement dated 2nd December 1964 and on 18th January 1965 the parties submitted their joint application to me in which they requested me for permission to withdraw demands Nos. 1 and 5 and stated that the hearing on this demand No. 2 and the other demands 3, 4 and 6 had concluded and it was, therefore, that in my Award Part I herein I have stated that my Award on demands Nos. 2, 3, 4 and 6 would follow later. It will, therefore, be seen that the objections urged in the company's said supplementary written statement dated 2nd December 1964 were never pressed.

6. In any case, I am making an award on demand No. 2 in terms of what the Central Wage Board for the Coal Mining Industry will recommend in respect of the revision of wage rates including dearness allowance and other allowances and the two other matters under clauses (b) and (c) under reference in demand No. 2, the objection of the company will in fact be met as it is admitted and specifically so stated by the company in its said supplementary written statement dated 2nd December 1964 that the recommendations of the Coal Wage Board would, when accepted by the Government, also apply to the coal washery of the Nowrozabad Colliery, and the interim wage increases recommended by the Coal Wage Board have already been granted to the washery workmen.

7 I therefore, direct and award that on issues (a), (b) and (c) in demand No. 2, reproduced above, the company shall for its coal washery employees at Nowrozabad (a) grant the same wage rates including dearness allowance and other allowances (b) give such change of designation and categorisation and (c) supply such uniforms as the Central Wage Board for the Coal Mining Industry in India will recommend for the various categories of employees in the coal washing plant and which recommendations will be accepted by the Government and implemented by the industry. Of course, for whichever category of the washing plant the existing rates of wages are higher than what the Coal Wage Board will recommend the workmen will continue to get the benefit of the higher wage scales.

8. The only question left for determination by me is the date from which this award should be made effective. The Union has urged that this award should be given retrospective effect from the date the demand was made or atleast from the date the Government Order of reference viz. 19th November 1962. But in my opinion the only fair thing to do would be to make the award herein operative from the date the recommendations of the Central Wage Board for

the Coal Mining Industry come into operation, as otherwise this company may have to pay higher wages to its employees in its coal washery for a longer period than what the other units in this industry would have to pay. I, therefore, direct on demand No. 2 that the recommendations of the Coal Wage Board as approved by the Government will apply on the three subject matters (a), (b) and (c) of demand No. 2 from the date the Wage Board's recommendations come into operation.

9. Demand No. 3:

"Whether the management of the Nowrozabad Colliery of M/s. Associated Cement Companies Ltd. was justified in discontinuing the leave and gratuity facilities originally admissible to Sarvashri Abdul Jalil Khan and Syed Noor in the Cement Works wherefrom they were transferred? If not what relief are these two workmen entitled in this respect?"

Abdul Jalil Khan was employed in the Kymore Cement Works of the Associated Cement Companies Limited (hereinafter referred to as the 'Company') in or about 1956 as Crusher Attendant. He was originally appointed as Trainee Crusher Attendant by letter of appointment dated 7th April 1956 (Ex. W-14). It appears that the Company had in 1959 invited applications for a number of posts for their Coal Washing Plant at Nowrozabad Colliery in Madhya Pradesh (Ex. E-4). Of these there were three posts of Crusher Supervisors for one of which Abdul Jalil Khan applied and he was selected and was appointed to that post by the company's letter of appointment dated 21st October 1959 (Ex. E-5) in which he was informed that he was appointed on a basic salary of Rs. 2-10-0 per day, plus dearness allowance at the scale in force. He was further informed that the "appointment letter, containing terms and conditions of service will be handed over to you at the colliery, when you arrive for joining duty." But no such letter appears to have been given to him. He was asked to report for duty at the colliery in the third or the fourth week of November 1959. On 5th November 1959, Abdul Jalil Khan addressed a letter to the Manager of the Kymore Cement Works, requesting his transfer to the Nowrozabad Colliery so that there may not be a break in his service (Ex. E-6). I may pause here and say that the Kymore Cement Works and the Nowrozabad Colliery both belong to the company. Thereupon, by a letter dated 12th January 1960, addressed by the Manager, Kymore Cement Works to the Nowrozabad Collieries he stated in para 2 as follows:—

"Mr. Jalil Khan has been instructed to report to you on the 18th instant. He is being treated as on permanent transfer to you, with the tacit understanding that if he does not prove satisfactory, he would be sent back to us. Necessary sanction for his transfer to your collieries has been received by us from the operation department."

It is admitted that from 18th January 1960 Abdul Jalil Khan was paid on the Muster Roll of the Nowrozabad Colliery.

10. It is admitted that in the Kymore Cement Works Shri Abdul Jalil Khan was entitled, as one of the conditions of his service, to the benefit of the scheme of Gratuity applicable there. It is admitted that the Nowrozabad Colliery employees are not entitled to the benefits of any gratuity scheme. It is also admitted that at Kymore, Abdul Jalil Khan was entitled to the following leave facilities in the year:—

14 days' privilege leave with pay

7 days' casual leave with pay

15 days' sick leave with full pay,

whilst the employees of the Nowrozabad Colliery including the Washery get leave under the provisions of the Mines Act which, it is admitted, provides for lesser leave than the leave provided for in the Kymore Cement Works, and does not provide for any separate casual leave at all.

11. Now, it is admitted that after he joined the Nowrozabad Colliery, Abdul Jalil Khan got basic pay and dearness allowance variable dearness allowance, quarterly attendance bonus under the Coal Mines Bonus Scheme and the benefits of all other conditions of service applicable to Colliery workers. He also joined the Colliery Provident Fund. It is not denied that his total monthly emoluments at the Nowrozabad Colliery were much higher than those he was drawing at the Kymore Cement Works. He also got certain other service benefits of "sick khoraki" and return railway fare when returning from leave, to which he was not entitled to at the Kymore Cement Works.

12. Now, on 15th June 1961, the General Secretary of the Nowrozabad Colliery Mazdoor Sangh addressed a letter to the Manager, Nowrozabad Colliery in which *inter alia* he referred to two cases of workmen *viz.* Piyara Singh and Abdul Jalil having been transferred from the Bhupendra and Kymore Cement Works respectively to the Nowrozabad Colliery (Ex. W-17). The letter stated:

"Whilst in the Cement Works they (Piyara Singh and Abdul Jalil Khan) were getting 7 days casual leave and 15 days, sick leave fully paid and were also entitled to gratuity, it will be kind of you to confirm that these employees shall continue to get these facilities here as well (Ex. W-17)."

To this the Agent, Nowrozabad Colliery, stated that these two cases were being examined along with another case and that they would let them know as soon as a decision was reached. But what transpired thereafter is not known. Later, however, the Union on behalf of Abdul Jalil Khan and Syed Noor, raised an industrial dispute claiming the leave facilities which they were enjoying at the respective cement works from which they were transferred as also the benefit of gratuity to which they were entitled at the cement works, resulting in this reference after conciliation had failed.

13. Now, the Union's contention is that the company having transferred Abdul Jalil Khan from its Kymore Cement Works where he was first appointed, he was entitled to carry with him and claim the better conditions relating to leave and to the benefit of the scheme of gratuity to which he was entitled as a condition of his employment and it has in that connection referred to the Standing Orders of the Nowrozabad Colliery. The argument at first sight seems plausible. But it has to be remembered that Abdul Jalil Khan had applied for the post of Crusher Supervisor at the Washery of the Nowrozabad Colliery on conditions of service which were specified in that advertisement (Ex. E-4). He well knew when he applied for the post that if selected he would be accepting service in the company's collieries whose employees are governed by distinct and separate rules of service generally applicable to the Coal Mining Industry. Under those service rules he received certain benefits of higher pay and also certain benefits *e.g.* a quarterly bonus payment linked to attendance and lost the benefit of profit sharing bonus which he was getting when in service at the Kymore Cement Works. He must also be deemed to have known when he accepted a permanent transfer to Nowrozabad that he would not be entitled to the benefit of gratuity to which he was entitled at Kymore. The fact that he joined the Provident Fund at Nowrozabad would indicate that he was prepared to accept the retiral benefits of the coal industry. With regard to leave, surely when claiming certain other benefits such as sick leave, khoraki benefit and return railway fare under the service rules of the Nowrozabad Colliery, he could not claim at the same time the benefits of casual leave to which he was entitled to at the Kymore Cement Works, but which benefits is not being granted to the Colliery employees.

14. I am satisfied that when he accepted permanent appointment at the Nowrozabad Colliery, he agreed to accept the terms and conditions of service of the Nowrozabad Colliery and did not retain the better conditions of service in matters of leave and gratuity of the Kymore Cement Works. But having been granted continuity of service, his service at the Kymore Cement Works would count when calculating his service with company for the benefit of any gratuity scheme which may hereafter be introduced in the Nowrozabad Colliery as a result of the recommendation of the Coal Wage Board or otherwise.

15. What I have stated about Abdul Jalil Khan would also apply to the case of Syed Noor who was appointed at the Shahabad Cement Works as Fitter in 1956 and who was transferred to the Nowrozabad Colliery Washery also as a Fitter in April 1959. It is admitted that till 1st February 1960 he was retained on the Shahabad Muster Roll, and thereafter was transferred to the Nowrozabad Colliery Muster Roll. Since 1st February 1960, like Abdul Jalil Khan, he also got all the benefits of service at the Colliery. For the same reasons as stated in the case of Abdul Jalil Khan he cannot, in my opinion, lay claim to the benefits of leave and gratuity applicable to employees of the Cement Works of the company.

16. I, therefore, answer the question in demand No. 3 in the affirmative and hold that Abdul Jalil Khan and Syed Noor are entitled to any relief.

17. I may say that on 16th December 1964, at the hearing of this demand at Jabalpur the company filed an application dated 14th December 1964, raising certain legal objection to the validity and maintainability of the reference on this demand because the demand for the introduction of a gratuity scheme on an industrywise basis in the coal mining industry, had been referred to the Coal

**Wage Board.** But no arguments were urged in support of this contention at the hearing on this demand at Jabalpur and as stated earlier on 18th January 1965, the parties submitted a joint application referred to earlier in which they have clearly stated that the hearing on demands Nos. 2, 3, 4 and 6 had concluded.

18. Demand No. 4:

"Whether the Management of Nowrozabad Colliery of Messrs. Associated Cement Company Ltd. was justified in not granting the general increment given to colliery workers in June 1960 to Shri Abdul Jalil Khan who was appointed in the Colliery on 10th January 1960 on relief from Kymore Cement Works of the same company. If not to what relief is the workman entitled?"

It is admitted that Abdul Jalil Khan was transferred to the Nowrozabad Colliery as stated earlier on 18th January 1960. He was also granted continuity of his service at Kymore. Now, it appears that all colliery workers got one general increment in their scales of pay in June 1960. It is admitted that this benefit was granted by the company to its washery employees also. Now, it is admitted that the company did not give this increment to Abdul Jalil Khan and the ground on which it seeks to justify not having granted the increment is the fact that he had by the time the increment became payable not put in the requisite one year's service at Nowrozabad Colliery, he having been transferred to the colliery from the Kymore Cement Works on 18th January 1960. But it is not denied that on 1st January 1960, Abdul Jalil Khan was not granted the annual increment which he was entitled to at Kymore Cement Works—probably because of his pending transfer to the Nowrozabad Colliery. Now, Abdul Jalil Khan having been granted the benefits of continuity of service could not, I think, be denied the benefit of the annual increment at both places. I think, in the circumstances, and bearing in mind the fact of the benefit of continuity of service granted to him, he was entitled to the grant to him of the general increment granted to the washery employees in June 1960, which in his case would have been Re. 0.14 nP. per day.

19. The Company in its written statement has raised certain legal objections to the maintainability of the claim, one being that this claim should have been agitated before the Payment of Wages Authority under the Payment of Wages Act and not under the Industrial Disputes Act, but no arguments were advanced on this point at the hearing. I do not think the Payment of Wages Act, can be held to be a bar to an industrial dispute raised over a subject matter which is clearly covered by the definition of the term "industrial dispute" as contained in Section 2(k) of the Industrial Disputes Act, 1947.

20. I, therefore, hold that the company was not justified in not granting the general increment granted to the colliery workers in June 1960 to Abdul Jalil Khan, and I direct it to pay him the amount that would be due to him on the basis of the annual increment Re. 0.14 nP. per day due to him in June 1960, within one month of the date this Award becomes enforceable.

21. Demand No. 6:

"Whether the Crushing Supervisors employed in the coal washing plant of Nowrozabad Colliery of Messrs. Associated Cement Companies Limited are entitled to payment of any extra wages for the work of taking down the attendance of the workmen working under them? If so, at what rate and from which date?"

It is claimed that the Crushing Supervisors at the washery in the 3rd shift have to mark the attendance of the workmen attending in the 3rd shift. It is claimed that this is a statutory liability of the management under the Mines Act and that in order to discharge this duty the Crusher Supervisors have to attend the washery half an hour before the shift commences. The claim is for the period 1st January 1960 to 30th September 1962, before the introduction of the Card Punching Machine from 1st January 1962. It is urged by the Union that by making the Crushing Supervisor do this work, the company had saved the wages of an Attendance Clerk, and had not given any payment or compensation to the three Crushing Supervisors who rotate in the night shift and who did the work of taking down the attendance in the 3rd shift during the aforesaid period.

22. I have considered the written statement of the parties and the submissions of their representatives and in my opinion the Crushing Supervisors in marking the attendance of the washery employees in the 3rd shift were doing some small work in addition to their normal duties. It appears that before the introduction of the punch card system there was an attendance clerk who was marking the attendance of the washery employees in the first and second shifts. He used to

leave at 5 p.m. after completion of the first shift but as the second shift commences at 4.30 p.m. he also used to mark the attendance of the employees in the second shift. It also does not appear from Ex. W-15, which is a copy of the instructions for the crushing section, that the work of marking attendance was part of the normal duties of crushing supervisors. Ex. W-16 is a notice which was issued after the punch card machine was installed when on one occasion the punch machine was not working because of lack of punch cards. In that notice the workmen in the washery plant were asked to record the attendance at the time office and only in the 3rd shift the Crushing Supervisors were asked to mark the attendance on a separate piece of paper and hand over the same to the Time Office the next morning. The Union's claim is that for marking the attendance in the 3rd shift, the Crushing Supervisor of the 3rd shift was entitled to a little extra payment not only because he has to do an extra bit of work but because a certain amount of responsibility attaches to the work as under the Mines Regulations and Rules emphasis has been laid on the correct marking of the attendance of the workmen in coal mines and their other departments. It is also urged that by making the Crushing Supervisor do the work of marking the attendance the company was saving the wages of an attendance clerk which it would otherwise have had to employ in the 3rd shift.

23. The company has denied that the Crushing Supervisor in the 3rd shift has to attend to his duties half an hour before the commencement of the shift. It has submitted that the names of the workmen in the 3rd shift are already filled in the Time Office and the only thing the Crushing Supervisor in the 3rd shift has to do is the marking of the attendance of the workmen concerned by putting a tick mark or a 'P' against the names of those present.

24. In my opinion there is no doubt that the Crushing Supervisor in the 3rd shift has to mark the attendance of the washery employees and certain other categories of workmen and therefore he is doing some little work in addition to his normal duties. The work, though simple, carries a certain amount of responsibility as under the Mines Regulations and the Mines Rule great importance is attached to correct recording of the attendance of workmen in each shift in a colliery and its other departments. In view of this, I feel that the Crushing Supervisors in the third shift are entitled to some extra remuneration for this work. It is significant that attendance in the second and third shifts at the washery was marked by an Attendance Clerk who was paid separately for that work. I would, therefore, fix a small extra remuneration for the Crushing Supervisors in the third shift who were asked to mark the attendance. I am conscious that Crushing Supervisors in the third shift were working in rotation and that one of the three Crushing Supervisors viz. Shri Piyaralal has left the company and that at present there are only 2 Supervisors, Abdul Jalil Khan and Majumdar from among the Crushing Supervisors who were working in the third shift between 1st January 1960 and 30th August 1962. I think in the circumstances and facts of the case an order for a small amount of monthly compensation for each of these two workmen during the period of the 32 months they worked as Crushing Supervisors and marked the attendance in the third shift would meet the ends of justice. I, therefore, direct that the company shall pay to Abdul Jalil Khan and Majumdar an extra remuneration or compensation at the rate of Rs. 5 per month for the period between 1st January 1960 and 30th August 1962 during which they marked attendance in the third shift and I direct that the payment should be made within one month of the date this award becomes enforceable.

No order as to costs.

MINISTRY OF PETROLEUM & CHEMICALS

New Delhi, the 6th May 1965

**S.O. 1619.**—Whereas by a notification of the Government of India in the Ministry of Mines and Fuel S.O. No. 2501 dated 22nd August, 1963 read with the Ministry of Petroleum and Chemicals S.O. No. 3479 dated the 23rd September, 1964 under sub-section (1) of Section 3 of the Petroleum Pipelines (Acquisition of Right of User in Land) Act, 1962 (50 of 1962), the Central Government declared its intention to acquire the right of user in the lands specified in the Schedule appended to that notification for the purpose of laying pipelines;

And whereas the Competent Authority has, under sub-section (1) of section 6 of the said Act, submitted report to the Government;

And, whereas, the Central Government has, after considering the said report, decided to acquire the right of user in lands specified in the Schedule appended to this notification;

Now, therefore, in exercise of the powers conferred by sub-section (i) of section 6 of the said Act, the Central Government hereby declares that the right of user in the said lands specified in the schedule appended to this notification is hereby acquired for laying the pipelines and in exercise of the powers conferred by sub-section (4) of that Section, the Central Government directs that the right of user in the said lands, shall instead of vesting in the Central Government, vest on the date of publication of this declaration in the Indian Oil Corporation Limited free from all encumbrances.

S.O 1623.—Whereas by a notification of the Government of India in the Ministry of Petroleum and Chemicals S.O. No. 810 dated the 2nd March 1965 under sub-section (1) of Section 3 of the Petroleum Pipelines (Acquisition of Right of User in Land) Act, 1962 (50 of 1962), the Central Government declared its intention to acquire the right of user in the lands specified in the Schedule appended to that notification for the purpose of laying pipelines;

And whereas the Competent Authority has, under sub-section (i) of section 6 of the said Act, submitted report to the Government;

And, whereas, the Central Government has, after considering the said report, decided to acquire the right of user in lands specified in the Schedule appended to this notification;

Now, therefore, in exercise of the powers conferred by sub-section (i) of section 6 of the said Act, the Central Government hereby declares that the right of user in

the said lands specified in the schedule appended to this notification is hereby acquired for laying the pipelines and in exercise of the powers conferred by sub-section (4) of that Section, the Central Government directs that the right of user in the said lands, shall instead of vesting in the Central Government vest on the date of publication of this declaration in the Oil and Natural Gas Commission free from all encumbrances.

[No. 31/50/63-ONG-Vol. III.]

S.O. 1626.—Whereas it appears to the Central Government that it is necessary in the public interest that for the transport of petroleum from Kalol in Gujarat State to Baroda in Gujarat State, pipelines should be laid by the Oil and Natural Gas Commission and that for the purpose of laying such pipelines, it is necessary to acquire the right of user in the land described in the schedule annexed hereto.

2. Now, therefore, in exercise of the powers conferred by sub-section (1) of Section 3 of the Petroleum Pipelines (Acquisition of Right of User in Land) Act, 1962 (50 of 1962), the Central Government hereby declares its intention to acquire the right of user therein.

3. Any person interested in the said land may, within 21 days from the date of this notification object to the laying of the pipelines under the land to the Liaison Officer, Competent Authority at Elempeeco, 4th Floor, Sayaji Ganj, Opp. College, Lokmanya Tilak Road, Baroda in the office of the Gujarat Pipeline Project, Oil and Natural Gas Commission. Every person making such an objection shall also state specifically whether he wishes to be heard in person or by a legal practitioner.
